Employment History

2018 – 2020 **Freelance content and project manager**
Various clients
Designed a content management system for an Apple-featured consumer app. Project managed a small team of software engineers to build the system and delivered training to the company

2014 – 2018 Career break: travelling and learning German

2012 – 2014 **Senior Executive Officer, Department for Education**
UK Government
Interventions Officer: used national statistical datasets to drive improvement in children's services. Worked with local leaders to agree targeted change plans, monitored progress and made regular reports to government ministers.

High-impact Projects Team: I was a founding member of a department-wide team of project specialists, delivering "first-aid" and focussed support to help key projects deliver on time and to budget.

2000 – 2012 **Higher Executive Officer, Department for Environment**
UK Government
Project Officer: worked on a large number of legislation changes, often to tight regulatory deadlines. Liaised with specialist colleagues, wrote evidence-based business plans, risk and impact assessments. Lead on stakeholder communications programmes to secure buy-in for potentially controversial policy changes.

Development Manager: staff mentoring, coaching and performance reviews.
